ACCORD SUPERSPECIALITY HOSPITAL

हे मनुष्य ! तुम मिलकर चलो, मिलकर विचार करो और तुम्हारे मन एक हो कर ज्ञान प्राप्त करें जिस प्रकार तुम्हारे पूर्वज एक थे। वैसे तुम सब भी एक रहकर अपना अपना कार्य करो तुम्हारा लक्ष्य एक हो, विचार एक हो, अंतः करण भी एक हो और तुम्हारी आहुतियां भी समान यज्ञ के लिए ही हो तुम्हारा संकल्प एक सामान रहे, तुम्हारे हृदय एक रहे और तुम्हारे मन भी एक जैसे हो, इस प्रकार, संगठित रहकर तुम सब अपने सारे कार्य संपादित करो

Dear Friend, assemble, speak together, let your mind be all of one ACCORD just like your ancestors, and in the same way, you also do your work by being in ACCORD. May your goals, thoughts, conscience, and sacrifice be towards one aim. May your thoughts and heart be in ACCORD and your mind also be the same; in this way, by being ACCORD, may you all accomplish your tasks.

VISION

We envision to be a compassionate healthcare delivery partner and provide unparalleled experience by integrating traditional wisdom, modern technology, artificial intelligence and effective clinical protocols

MISSION

Our objective is to provide a responsive healing environment and contribute towards well-being of every patient. To inspire hope by our unrelenting attention to clinical excellence, patient safety and an unparalleled passion and commitment to assure the very best in healthcare.

OUR STORY

The story of Accord began, when six enthusiastic minds collaborated to create the India's one of the finest SMART Hospital called Accord Superspeciality Hospital. This hospital is a brainchild of highly experienced and renowned team of doctors:

Dr. Prabal Roy (Chairman & Managing Director)

Dr. Rishi Gupta (Chairman – Cardiac Sciences)

Dr. Jitendra Kumar (Chairman – Renal Sciences & Transplant Unit)

Dr. Yuvraj Kumar (Chairman – Orthopaedics, Joint Replacement & Sports Injury)

Dr. Ram Chandra Soni (Chairman – Gastroenterology & Hepatology)

Dr. Rohit Gupta (Chairman – Neurosciences)

Our visionaries believe in the old saying that the best doctor is the one who not only heals his patients but also cares for them. The essence of medical care at Accord is health and happiness of the patients, which means addressing individual needs through patient-centric features. Our goal is to make a difference for people who need it the most.

M S S A G E

“

Accord Super Speciality Hospital, has brought together Six Super Specialist doctors on a single platform to share their vision, wisdom and opinions to integrate the traditional knowledge of medicine with new-age treatment modalities, bringing out the best of both. We strive to provide you with the most innovative technologies under one roof. We along with our teams bring on board immense experience for addressing healthcare needs of the region.

Our team of doctors, nurses, technicians and other heart experts are there to ensure unparalleled excellence in patient care. We are available 24x7 to help patients with cardiac emergencies with primary and complex Coronary Angioplasties and Stenting.

FACILITIES IN CARDIAC DEPARTMENT

INFRASTRUCTURE

OPD services: • Paediatric OPD & Speciality OPD like Arrhythmia also available

- Heart Failure Clinic
- Comprehensive cardiac care

The Department is equipped with world-class infrastructure to provide comprehensive cardiac care.

CRITICAL AREA

Equipped with state-of-the-art 18 bedded CCU with fully equipped critical care ambulatories. Critical care is equipped with the latest AI-based Centricity system from GE to provide seamless and high-quality critical care monitoring. CCU is also equipped with IABP & ECMO services to provide the highest care to critically ill patients.

NON INVASIVE DEPARTMENT

Institute boasts of the very high-quality noninvasive department in Delhi NCR region with the latest technology equipped with 3 high-end ECHO machines –

ultra edition E95, 4D ECHO Machines which are equipped with latest artificial intelligence and connected features, VIVID advance echo system and 4D TEE probe & pediatric ECHO. Point of care ultraportable ECHO machine for emergency ECHO

Also equipped with high-end TMT, Digital Holter System, PFT, ECG. The noninvasive department is 1st in Faridabad to bring high-quality cardiac MRI & a 500 Slice CT scanner for non-invasive high-quality diagnosis of cardiac patients.

INVASIVE LAB

Cardiac Centre is equipped with the latest 3rd generation 30cm flat panel (1st in Faridabad) 3D Cath Lab IGS330 from GE. Cath lab is capable of doing structural heart

interventions, Neuro interventions, and peripheral interventions with specialized Innova CT (CT Scan in Cath Lab).

Cath lab is equipped with other quality equipment's like intravascular ultrasound, OCT, FFR, the coronary intravascular lithotripsy system for complex angioplasties

SERVICES

INTERVENTIONAL CARDIOLOGY

- 3rd Generation Cath lab with largest diameter flat panel for cardiac, peripheral and dedicated neuro vascular interventions with capability of 3D angiography & integration of CT
- Radial & Femoral Angiography
- 24/7 Primary Angioplasty
- Complex angioplasty for chronic total occlusions
- Left Main Angioplasty
- Bifurcation lesion Angioplasty
- Post Bypass Graft Interventions
- Carotid angioplasty
- Rotablation for calcified occasional
- Peripheral angioplasty & Stenting
- Percutaneous aortic aneurysm repair by stent grafts
- Septal alcohol ablation in Hypertrophic cardiomyopathy

STRUCTURAL HEART DISEASE INTERVENTIONS

- Balloon Valvotomies for Mitral, Aortic, Pulmonary and Tricuspid Stenosis
- Percutaneous aortic valve replacement (TAVR)
- Endovascular aneurysm repair (EVAR)
- Percutaneous Mitral Valve Repair (Mitraclip)
- Non-surgical Mitral Valve Repair
- Nonsurgical device closure of congenital heart defects – ASD, PDA, VSD

CARDIOTHORACIC SURGERY

- Minimally Invasive Bypass Surgeries
- Valve Replacements
- Aneurysm Surgery
- Complex CABG / Multi Valve Surgery
- Lung Surgery
- Vascular Surgery
- Laser Varicose Veins Procedures
- Bentall's Surgery
- Paediatric Heart Surgery
- Ecmo care for most serious patients for cardio vascular support

ELECTROPHYSIOLOGY

- Electrophysiology studies
- Pacemaker implantation
- ICDs implantation
- CRT-P & CRT-D implantation
- Radio frequency ablation for cardiac arrhythmias like SVT, VT & AF
- Bentall's Surgery
- Paediatric Heart Surgery
- Ecmo care for most serious patients for cardio vascular support

ELECTROPHYSIOLOGY

- Electrophysiology studies
- Pacemaker implantation
- ICDs implantation
- CRT-P & CRT-D implantation
- Radio frequency ablation for cardiac arrhythmias like SVT, VT & AF

HIGHLIGHTS

- Cardiac MRI • 3rd Generation Cath Lab • High End ECHO Machines • 4D Technology ECMO

NEPHROLOGY

At accord, we are offering a comprehensive kidney care to patients through our full range of diagnostic, operative and disease management services. Our integrated team of specialists tackle a wide range of kidney disorders in patients suffering from the early phases and end stage kidney dysfunction. We also specialize in early detection of kidney diseases by kidney biopsy & other tools to ensure timely intervention and cure. Our department is well equipped to diagnose & treat primary or secondary kidney & allied diseases, namely: electrolyte disorders, hypertension, diabetic nephropathy, glomerulonephritis, polycystic kidney disease, and other inherited renal disease renal parenchymal disease etc. For patient who already develop chronic kidney disease, we specialize in renoprotection and in retarding the progressing of the condition. For patient with kidney failure we provide all kinds of renal replacement therapy.

UROLOGY

Our urology department focuses on the conditions of the male and female urinary tract; which includes the kidneys, ureter, bladder, and urethra. We are well-equipped with advanced technology, and offer comprehensive solutions to complex surgical problems. We specialize in providing treatment and management of Kidney stones, Reflux and obstructive nephropathies. With experienced urologists, skilled medical staff and world-class infrastructure, we are dedicated to provide unparalleled and individualized care for every patient with urological disorders. Our team have years of experience in performing kidney transplant with unbeatable success rates.

SERVICES

NEPHROLOGY

- Kidney Biopsy
- Emergency Nephrology
- Out Patient & In Patient Kidney Care
- Ultramodern Hemodialysis / Hemodiafiltration / Hemoperfusion
- All modes of CRRT
- COVID-19 Dialysis
- Continuous Ambulatory Peritoneal Dialysis (CAPD)
- Pre & post Renal Transplantation Care
- Critical care Nephrology
- Urinary infection treatment

- Renal Diet Counseling
- Pediatric Nephrology
- Acute Kidney Injury (AKI) Treatment

- Palliative Nephrology
- Preventive Nephrology
- CKD Management

UROLOGY

- Endoscopic Stone Surgery- PCNL, URS, RIRS
- Lithotripsy- Extracorporeal
- Laser Surgery for Prostate
- Uro-gynecological Surgeries
- Pediatric Urology – Endoscopic & Reconstructive Surgeries
- Male Infertility Treatment
- Non Scalpel Vasectomy
- Chronic/complicated UTIs
- Cancer surgery for Prostate, Kidney & Bladder Tumor
- Urethral Stricture Surgeries
- AV Fistula Creation

KIDNEY TRANSPLANT

- All kinds of kidney transplant including
- ABO Incompatible
- Sensitized Kidney Transplant
- HIV Positive Kidney Transplant
- Cadaveric Kidney Transplant

CENTRE OF EXCELLENCE ACCORD ORTHOPAEDICS, JOINT REPLACEMENT & SPORTS INJURY INSTITUTE

ORTHOPEDICS, JOINT REPLACEMENT & SPORTS INJURY

At Accord Superspeciality Hospital, we offer comprehensive care for various Orthopaedic conditions, including knee, hip, joint and spine problems. We are equipped with a wide array of specialties ranging from Joint Replacement, Sports Medicine, Paediatric Orthopaedic Services, Arthritis and Pain Management. We focus on providing the highest level of patient care with professional expertise for early mobilization.

CENTRE FOR JOINT REPLACEMENT

At Accord Superspeciality Hospital, we offer state of the art computer navigated joint replacement services for knee/hip/shoulder/elbow. Equipped with the most advanced modular operation theaters and post-surgery recovery suites, we offer an unmatched patient experience.

SERVICES

- Computer Assisted Joint Replacement Surgery
- Hand, Shoulder & Elbow Surgery
- Hip Surgery
- Revision Surgeries of Joints
- Deformities Surgeries
- Spine Surgery
- Foot & Ankle Surgery
- Total Knee & Hip Replacement Surgery

SPINE SURGERY

- Cervical & lumbar spondylitis
- Spinal injury
- Minimally invasive surgery
- Deformity correction: Scoliosis & Kyphosis
- Osteoporotic collapse fracture: Balloon kyphoplasty, Vertebroplasty
- Spinal deformity correction
- Osteoporosis treatment
- Disc replacement surgery

SPORTS INJURY & ARTHROSCOPY

Sports medicine is a sub-specialty of Orthopaedics that focuses on the diagnosis, treatment and prevention of injuries that are usually sustained while playing sports or while doing rigorous physical activities. Our team of experts offers various surgical, non-surgical and rehabilitation programs which helps patients get back to their performance level as before. We specialize in advanced keyhole surgeries of shoulder, knee, hip and ankle, and biological modalities such as PRP (platelet rich plasma) for non-surgical management of various ligament and joint conditions.

SERVICES

- Shoulder Ligament Injuries
- Rotator Cuff Tear
- Muscle or Ligament Tear
- MPFL Tear
- Complex Peri Articular & Pelvi-Acetabular Fractures
- Reconstruction of the Hip and Pelvis – Poly-Trauma Management
- Cartilage Injuries
- Tendonitis
- Shoulder/Knee Dislocation

EMERGENCY, TRAUMA & DEFORMITY SURGERY

We have level 1 trauma centre, where we provide 24x7 emergency support and treatment for patients with traumatic bone fractures and soft tissue injuries. Our highly experienced team of orthopedic surgeons is recognized for the treatment of fractures and deformities as a result of a failed surgery and complex injury. Our primary goal is to increase quality of life by providing personalized care and treatment to our patients.

HIGHLIGHTS

- Digital Orthopedic Operating Suite
- High definition 4K cameras and arthroscopic equipment for performing technically challenging keyhole procedures.
- Our state of the – art technology ensures better alignment, greater precisions and excellent surgical outcome.
- 3D Computer Navigation System

HIGHLIGHTS

- 3D Computer Navigation
- Ortho Rehabilitation
- Digital Orthopaedic Suite

OVERVIEW

Accord Super Specialty Hospital has a dedicated facility for patients with gastrointestinal, liver, and pancreatic diseases. The team of experts offers a customized treatment plan to the patients, for which we have developed a practice where medical, surgical and allied teams jointly decide about the patient and disease management. The best treatment is offered for diseases and disorders of the pancreas, liver, gallbladder, esophagus, stomach, small intestine and colon.

GASTROENTEROLOGY

This division of the department deals with the evaluation and treatment of gastrointestinal disorders (i.e. medical conditions from mouth till anus). It is manned by a dedicated gastrointestinal endoscopy team that provides quaternary level care for patients suffering from gastrointestinal diseases and various cancers. The team provides the latest and state-of-the-art endoscopic treatment for GI problems.

BILIARY SCIENCES

This unit is focused on the treatment of conditions related to the biliary system i.e. bile duct, supporting structures that produce and transport bile juice, gallbladder. The endoscopy team conducts major procedure like – ERCP to identify and treat the problems of the bile duct and pancreas. High-end procedures like EUS (endoscopic ultrasound) to identify and treat difficult diseases of the gall bladder, bile duct, liver, and pancreas.

BILIO PANCREATIC AND LIVER CANCER

This unit takes care of the patients suffering from liver cancer, chronic liver disease and pancreatitis by either performing surgical resection (tumor removal) or a liver transplant (replacing the non-functional liver with a healthy one by a surgical process) or pancreatic surgeries using state-of-the-art facilities. It also performs imaging tests like MRI or CT with angiography to spot the malignancy.

INTERVENTIONAL RADIOLOGY FOR LIVER DISORDERS

The department also runs dedicated interventional GI radiology which treats various diseases of the liver and intestine like incurable liver cancer, bleeding from GI tract, difficult to treat biliary cancers.

The department consists of the most advanced facilities and carries out all major endoscopy and radiology-assisted procedures for GI Disorders and Biliopancreatic and liver cancers.

DIAGNOSTIC ENDOSCOPIC PROCEDURES

- Colonoscopy
- Enteroscopy
- Upper GI Endoscopy
- Fibroscan
- Endoscopic Ultrasound
- Anorectal Manometry
- Breath Test

INTERVENTIONAL ENDOSCOPIC PROCEDURES

- Liver biopsy
- Polypectomy
- Endoscopic Retrograde Cholangiopancreatography (ERCP)
- Argon Plasma Coagulation
- Transarterial Chemoembolism for Liver Cancer (TACE/RFA/ MWA)
- Splenic Artery Embolization
- Therapeutic Upper & Lower GI, Endoscopy
- Biliary Decompression
- Metal Stent Placement
- Pseudocyst/WOPN Drainage
- Esophageal and Rectal Manometry
- Abscess Drainage

CENTRE OF EXCELLENCE ACCORD BRAIN & SPINE INSTITUTE

The department of Neurosciences at the Accord Super Speciality hospital, houses a well-integrated and dedicated team of region's best neurologists, neurosurgeons, interventional neurologists, paediatric neurologists and neuro psychiatrist, in order to deliver 24x7 unmatched, quality services to tackle all types of neurological/neurosurgical emergencies, including complex Brain & spine surgeries, along with advanced surgical procedures including Deep Brain Stimulation (DBS) for movement disorders and complex Epilepsy surgeries, buttressed by a steadfast, dedicated and most advanced "STROKEICU".

NEUROLOGY SERVICES AND SPECIALTY CLINICS

- Stroke clinic
- Headache clinic
- Botox clinic
- Neuro-Immunology clinic
- Pain clinic
- Epilepsy clinic
- Movement Disorder clinic
- Dementia clinic
- Nerve and Muscle Clinic
- Sleep clinic

PEDIATRIC NEUROLOGY

- Pediatric Epilepsy
- Young Onset Stroke
- Neuro-metabolic Disorders
- Ataxias
- Brain Infections
- Movement Disorders
- Cerebral Palsy
- Childhood Headaches
- Autism
- Developmental Issues

NEURO INTERVENTIONAL PROCEDURES

- Brain DSA
- Mechanical Intervention in Acute Stroke.
- 24/7 Acute Stroke therapy with Stent Retrieval of Thrombus
- Carotid Artery Stenting
- Coiling

NEURO SURGERY SERVICES

- Clipping for Neuro Aneurysm
- Brain Tumours and ICSOLs Clinic
- Endovascular Neurosurgery
- Endoscopic Skull Base Surgery
- Movement Disorder Surgery
- Neuro trauma Unit
- Minimally Invasive Spinal Surgery
- Endoscopic Brain Surgery
- Deep Brain Stimulation (DBS)
- Pediatric Neurosurgery

WHY CHOOSE THE ACCORD NEUROSCIENCES CENTRE

- One- stop Solution to all Neurological and Neurosurgical Ailments
- 24x7 Neurological/ Neurosurgical Emergency Services
- Most Advanced – Dedicated STROKE ICU
- Pioneer Neuro-intervention unit in the region, with the first "Brain Suite" for Acute Stroke
- Continuum of care with The Accord Neuro Rehab Unit (including Speech Therapy) and Dysphagia Clinic
- Best-in-class and most advanced medical intelligentsia and infrastructure under single roof –
 - Advanced Structural and Functional Neuro Imaging Techniques–
 - 1.5 Tesla MRI
- 500 Equivalent Slice Ct Scan
- Functional MRI
- MR Neurography
 - 3rd Generation Neuro Cath Lab For Neuro Interventions
 - Long Term EEG Monitoring
- Advanced Sleep Lab
- Neuro-electrophysiology Lab

HIGHLIGHTS

- **Mechanical Intervention in Acute Stroke**
- **24/7 Acute Stroke therapy with Stent Retrieval of thrombus**

CENTRE OF EXCELLENCE ACCORD GENERAL & LAPAROSCOPIC SURGERY INSTITUTE

PIONEER IN LATEST MINIMALLY INVASIVE SURGERY PROCEDURES

The department of Surgery at Accord Superspecialty Hospital provides comprehensive, round the clock surgical services for all general surgical procedures including advanced laparoscopic surgeries. Our team of surgeons work closely with other specialists involved in each patient's care to diagnose and provide timely surgical intervention for complex conditions which require immediate interventions like Trauma Surgeries, Endocrine Surgeries, Gastrointestinal Surgeries, Minimal Access Surgeries Including Laparoscopic Appendectomy, Gall Bladder Removal, Minimally Invasive Procedure For Piles & Hernia Repair, Single Incision Laparoscopic Surgeries (For Better Cosmetic Outcome), Colorectal Surgeries, Breast Surgery, Vascular Surgery, Pediatric Surgery, Dermatological Surgery, All Day Care Procedures.

SERVICES

- ADVANCED LAPAROSCOPIC SURGERIES FOR SOLID ORGAN DISEASES
- ADRENAL SPLENECTOMY
- ECTOMY

BARIATRIC AND METABOLIC SURGERIES (WEIGHT LOSS)

- Lap Sleeve Gastrectomy
- Lap RYGB
- Lap Mini Gastric Bypass
- Revision Bariatric Surgery

HEPATO BILIARY AND PANCREATIC SURGERY

- Lap Cholecystectomy with CBD exploration & biliary bypass
- Lap/Open Surgery for Benign/Malignant Diseases of the Pancreas

UPPER GI SURGERY

- Lap Fundoplication
- Lap Cardiomyotomy

HERNIA SURGERY

- Lap Inguinal Hernia repair
- Lap ventral hernia repair
- Lap e TEPRS
- Lap/Open Component Separation

LOWER GI AND COLORECTAL SURGERY

- Lap Appendectomy

- Total Mesorectal Excision for rectal cancer
- Cancer colon

VATS (VIDEO-ASSISTED THORACOSCOPIC SURGERY)

- Decortication and Empyema Drainage
- Bullectomy Thymectomy
- Pneumonectomy/Lobectomy

ENDOVASCULAR SURGERY

- Laser Varicose Vein Surgery

LASER PROCTOLOGY

- Hemorrhoids
- Fissure
- Fistula
- Pilonidal sinus

HEAD AND NECK SURGERY

- Thyroid
- Parotid surgery
- Parathyroid

BREAST SURGERY

- Benign and cancer

DEPARTMENT OF MOTHER & CHILD

Accord Hospital's vision is to serve women with advance diagnostic and therapeutic techniques that provide less invasive treatments for various gynaecologic conditions. We have a team of highly experienced doctors who are skilled in advanced laparoscopic and minimally invasive techniques required for the removal of gynaecological tumours, cysts, uterus and management of tubal pathologies interfering fertility.

OBSTETRICS

- Preconceptional counseling & care
- Pregnancy stress management
- Maternal Immunization & special mother's craft and antenatal classes
- Pregnancy after IVF
- Normal pregnancy with facility of painless labour
- Complex and High risk pregnancy and labour management
- Early pregnancy complications counselling and management
- Management of complicated pregnancies with multiple medical disorders
- Management of pregnancy with previous multiple surgeries
- Management of pregnancy with history of previous multiple pregnancies losses
- Ectopic pregnancy management
- Management of Scar ectopic pregnancy
- Molar pregnancy management
- Post-delivery Contraceptive counseling
- Premium Luxury Labour Room Service
- Emergency and critical care available 24x7

GYNECOLOGY

- Adolescent health counselling and management
- PCOD
- Laparoscopic and Hysteroscopy surgeries
- Advanced Gynecological Endoscopy
- Cancer Screening Services
- 3D Scan
- Menopause counselling and management
- Interventional radiology in gynecology
- Transvaginal USG for various gynecological disorder
- Genital Tuberculosis

- Medical & surgical Management of abnormal uterus bleeding
- Fibroids
- Adenomyosis
- Uterine prolapse
- Stress incontinence
- Endometriosis
- Ovarian cyst
- Vault prolapse

INFERTILITY & IVF

SERVICES

- Micro Incision Cataract Surgery (MICS-PHACO)
- Foldable-Multifocal/Trifocal IOL's
- Glaucoma-Treatment Protocols/Surgery
- Squint Surgery/Oculo Plastic Surgery
- Corneal Transplant Surgery/DSAEK/PRK/SBK
- Paediatric Ocular Surgery • Uveitis, Cornea
- Lasers/Retina-YAG Laser-Green Laser-Diode Laser
- Investigations incl. Optical Coherence Tomography (OCT), Visual Fields Analyser, Non Contact Tonometer, USG A Scan/ B Scan, Pachymetry, AutoRef Keratometer(ARK), UBM
- Ocular Trauma Surgery • Macular Degeneration Treatment
- Diabetic Retinopathy Surgery • IntraVitreous Therapy

FACILITIES

- Contact Lenses/Optical Frames/Optical Counter

PAEDIATRICS & NEONATOLOGY

Accord Super Speciality Hospital has a separate wing for children. Our team of doctors provides for the medical and surgical needs of toddlers, infants, adolescents. Our staff and intensive care physicians are highly trained and efficient in tackling any emergencies.

Our paediatrics and neonatologists are trained doctors who understand children's problems even when they cannot articulate them verbally. Our doctors encompass the qualities of healers and counsellors. Our highly qualified team has the experience to deal with the rarest to the most prevalent diseases.

PAEDIATRICS AND NEONATOLOGY PROCEDURES

Accord Super Speciality Hospital has the most exemplary child care unit in the region with top world-class facilities combined with the excellence of our doctors are the key to our success.

The procedures we undertake at our hospital are as follows.

- Anaesthesia and sedation:
Clinical use of general and topical anaesthesia in minor and major surgeries.
- Cardiovascular disorders: The doctors expertly perform arterial puncture and venous access for paediatric emergencies.
- Airway management: There are primary endotracheal intubation and rescue devices for children suffering from breathlessness.
- ENT treatment: Our doctors offer comprehensive diagnosis and treatment to manage issues of the ear, nose, and throat.
- Gastroenterology: This department looks after disorders such as hernias.
- Genitourinary: There are treatment plans for children suffering from urinary tract infections.
- Musculoskeletal care: Our doctors successfully treat all minor problems, including splints, fractures, ligament tears, and significant surgeries like knee replacement.
- Neurology: Lumbar puncture and cervical motion restriction are a few problems that the doctors in our hospital are well versed in treating.
- Pulmonary:
Doctors, backed with quality trained medical staff, conduct flexible bronchoscopies and thoracentesis for your children.

EMERGENCY & TRAUMA CARE

The Emergency and trauma care department at Accord Hospitals is a state of the art, 24X7 full service comprehensive facility tailored in providing life saving care to all patients. Working on the lines of international protocols, the department is trained to deliver world class care to patients suffering from stroke, attacks, polytrauma and abdominal emergencies. From minor cuts to life threatening attacks, Accord's emergency care unit can be trusted to do what's right for the patient.

Every emergency, whether small or big, has to be managed differently. The department specialists are trained in diagnosing the patient problem quickly and treating it fast. After all, immediate intervention by a specialist during emergency situations makes a huge difference. The main focus areas of the department are as follows:

- Coordinated emergency care throughout the patient admission
- A qualified, skilled and trained staff
- A world class infrastructure involving equipment maintenance, waiting area, triage and vulnerable area.
- Knowledge and monitoring of patient outcomes such as morbidity and mortality review and complaint monitoring so as to highlight any individual or system failure, if any.
- A commitment to maintaining adequate resources and active engagement between the staff and patient Patients can expect a safe, timely, effective, efficient and equitable attention at the Accord Emergency care unit at all times.

PHYSIOTHERAPY & REHABILITATION

Department of Physiotherapy & Rehabilitation at Accord Superspeciality Hospital has a team of experienced and highly trained staff. It is equipped with advanced world class modalities like Shockwave Therapy, Class IV LASER, Gait Trainer, ECG Telemetric Monitoring System for Cardiac Rehabilitation, Sensamove for balance training, etc.

The Physiotherapists at Accord Superspeciality Hospital practice all advanced manual therapy techniques. The Physiotherapy & Rehab programs are designed to facilitate a faster recovery for patients suffering from neurological, orthopedic, cardiac illnesses, injuries or diseases. It helps in improving the mobility and activity levels of the patients while also shortening the amount of time needed by them to stay in hospital.

The Hospital Rehabilitation Programs are tailored as per the individual needs of every patient. This is done by coordinating the efforts of different rehabilitation experts such as Physicians, Physiotherapists, Occupational Therapists, Speech Therapists, Nurses, Clinical Psychologists, Prothetists & Orthotists, Vocational Counselors, etc. These plans are designed in such a way that they can reverse certain disabling conditions that are considered to be non reversible by regular medical care. These Physiotherapy & Rehabilitation Programs address the physical, environmental and psychological needs of a patient through the process of restoring his or her physical functions as well as changing their social and physical environment.

DENTISTRY

The Dentistry Department at Accord Superspeciality Hospital has always remained at the forefront of advancements in techniques and equipment. We understand that undergoing a medical procedure may cause you a little bit of pain, and to keep you away from it, our experts make use of a huge variety of safe local anesthetics. Apart from focusing on faster recovery and greater results by your prescribed treatment, we also concentrate on working with the least amount of risk and preventing any future infection regarding your oral and physical health.

INTERNAL MEDICINE & RHEUMATOLOGY

The internal medicine department of Accord offers comprehensive primary care services to patients suffering from a broad range of medical ailments. The department is equipped with some of the latest and top of the line technologies for the right management of chronic heart diseases, acute lung infections and other illnesses. The department has an expert healthcare team comprising of several experienced and board certified doctors of internal medicine along with nurses and support staff skilled in this area.

The doctors at Accord internal medicine department focus mainly on the delivery of multidisciplinary care to all patients of all ages. In addition, expert counseling and health education is also provided to both the patients as well as their attendants so as to facilitate a better recovery. Other specialty divisions of the hospital are also brought on board in case of complete evaluation of patient's condition and complex procedures need to be performed on them. Thus, your treatment is provided in an environment that is supported by research and education which then helps in yielding new medical treatments and advances. This care model helps in ensuring that you get exactly the care that you need. Everything is coordinated with each other and helping you avail all services under one roof at one location- Accord.

The expert ENT team at Accord provides consultation, diagnosis, and treatment of neck, ear, nose, throat and head disorders in all age groups. These disorders directly affect the basic life functions required for a good quality of life such as speech, hearing, breathing, balancing, smell and taste. The ENT specialists are trained to detect and manage diseases, trauma, tumors and defects in the neck, head, and face. They can effectively manage the issues associated with the head and neck nerves that control sight, hearing, smell and facial movements.

Some of the common conditions that are treated by an ENT specialist are sinusitis, swollen adenoids, Tinnitus, Eardrum perforation, Tonsilitis, and many others. All aspects of ENT care from major surgical interventions to minor procedures are dealt with in Accord. All forms of endoscopic surgeries such as micro ear surgery and micro laryngeal surgery is performed at Accord. The ENT experts at Accord provide specialized and comprehensive medical care for both benign and malignant conditions of head and neck. High quality patient care is offered to all surgical as well as non surgical patients.

The ENT surgeons, doctors and nurses work together as a team working closely with other departments to provide a comprehensive and coordinated care to all the patients.

STEM CELL CENTRE

Stem Cell therapy involves usage of stem cells for treatment of several medical conditions. These undifferentiated cells are then manipulated by the scientists into the healthy type needed by the patient and then implanted into them. The stem cells may be harvested from your own body (autologous transplant) or from a donor's body (allogeneic transplant). With technological advancements, stem cells are fast becoming a successful and viable procedure in the treatment of many degenerative diseases. The success rate of stem cell transplant is very high making it one of the safest transplantation with very less number of complications involved.

The Accord Stem cell centre is equipped to perform all types of stem cell transplants including cord blood, peripheral blood and bone marrow. The hospital has ample facilities for the collection of stem cells, their processing, storage, cryopreservation and infusion, supported by a team of expert surgeons, doctors, hematologists and nurses. The centre's motto is to constantly forge ahead in the constantly evolving field of regenerative medicine, stem cells, nano technology and tissue engineering. The high standard of medical care and preventive health facilities offered by the centre is comparable to some of the best in the country as well as the globe.

IMAGING & RADIOLOGY

The radiology and imaging department at Accord is equipped with a comprehensive imaging system that provides radiology services to the patients 24X7. The services offered by the department cover a broad range of patient requirements such as Ultrasound, Doppler, Sonography, PET, MRI, CT, Dexa, Intervention procedures, Mammography, X rays and Fluoroscopy. The advanced technology medical equipments help in rendering an accurate and early diagnostic care.

Radiology services are offered to patients of all age groups including old age patients, new born children, inpatients and ambulatory patients. The experts aim to actively push the boundaries of radiology and imaging by training in research activities and seminars regularly. In order to ensure that all the malignancies related to a patient are treated properly, the department works closely with almost all the other specialties on a regular basis. It is the needs of the patients that drives the doctors at Accord.

The imaging staff at Accord consists of clinicians, physicists, and imaging experts with years of experience to collaborate closely with doctors and surgeons alike to improve the quality care received by the patient at the hospital. The transactional nature and broad scope of our work has resulted in helping the department to develop new imaging techniques, leading edge interventions and innovative diagnostic tools for better patient care.

ACCORD HAPPINESS CENTRE

HAPPY PEOPLE PRODUCE HAPPY RESULTS

In the recent pandemic times, we all have experienced days when everything seems to be falling apart and the world looks to be ending. This is especially true in the healthcare industry which has been the main bearer of Covid 19 burden. Combine this with the helplessness faced by these Doctors and Nurses for not attending their own matters or the anxiety of venting their emotions and the situation becomes all the more detrimental.

This is where the Accord Hospital happiness coaches come in. They help our healthcare workers to find the positives in life so as to become happier and be more content with their lives.

"Happiness is a choice"- the saying is truly spot on necessitating a purposeful approach towards a more fulfilling life. The importance of happiness coaching can be understood as:

- Helping the people to integrate their thoughts. More than this, they help in connecting your soul to spirit and restoring the internal balance.

The changes made by happiness coaches might look small but are very important in sustaining the mental well being of a person working in the healthcare industry.

ACCORD CENTRE FOR INTEGRATED MEDICINE

Accord Superspeciality Hospital is the first hospital in the region to have an integrated medicine Centre, offering state of the art Ayurveda and other alternative therapies where various modalities of treatment work together for overall wellness and complete health solutions of a person. Most of the procedures are covered in TPA. The department aims at offer personalized lifestyle modifications and treatment for the holistic wellbeing of the patient where we ensure the overall well-being of the patients with evidence-based and trusted methods that are gaining a lot of momentum nowadays.

After undergoing treatment, or a surgical procedure, Accord Centre for Integrated Medicine help to optimize the process of your recovery. With age-old trusted techniques, complemented by state of the art rehabilitation modalities and expertise of our team, Accord Centre for Integrated Medicine aims at helping patients recover faster with enhanced outcomes.

At Accord Centre for Integrated Medicine, we constantly strive to give you a hassle-free experience to make your visit worthwhile. Our experts will guide you with unparalleled care on every step. With precisely curated treatment plans, tailored to yield the best outcomes, we will help you become the healthier version of yourself.

AYURVEDA

Ayurveda works on a prakriti of a patient where our experts will assess your overall health by analyzing a lifestyle and symptoms, using old age technique, namely nadi pariksha, which helps in the diagnosis of the disease. Treatment is based on your prakriti (vata-pitt-kapha) analysis, a personalized treatment plan will be curated, which is all-natural and without any side effects.

NATUROPATHY

Naturopathy is an ancient mode of ayurvedic treatment which is now being used in a modern-day medicine. It uses natural remedies that help in self-healing. Natural therapy includes the use of herbs, massage, acupuncture, yoga, and satvik diet. It helps to cure many diseases such as cancer, obesity, fertility issues, headache, tumour, hormonal imbalance, diabetes, heart diseases, neural disorders, and skin-related diseases.

YOGA THERAPY

Yoga therapy is an ancient fitness regime that helps in curing physical, emotional, and spiritual issues. It helps the overall well-being of an individual. It uses breathing techniques, posture-related exercises, and meditation to improve the mental and physical well-being of a person. Yoga helps in treating a lot of diseases such as depression, anxiety, cervical, spondylitis, obesity, diabetes, heart diseases hypertension, hyperthyroidism, PCOD, fertility issues, and digestive problems.

HOMOEOPATHY

Homoeopathy is a branch of alternative medicine that is based on two beliefs:

- 'like cures like' - Homeopathy supports the idea that our body can cure itself, which means that a substance that is responsible for triggering certain symptoms in a healthy person can help to cure the same symptoms in a sick person.
- 'law of minimum dose' - Homeopathy also supports the notion that the lower the dose of medication, the better are the results. This is the reason why homoeopathic medicines are usually taken in diluted form.

INTEGRATED MEDICINE IS HIGHLY EFFECTIVE IN:

- Children Diseases
- Skin Problems
- Genetic Disorders
- Respiratory Problems
- Nervous Disorders
- Female Problems
- Endocrine Problems
- Mental Problems
- Cardiac Problem

BENEFITS OF INTEGRATED MEDICINE

- Integrated medicine focus on healing rather than disease.
- It promotes the overall health of the patient by maintaining the natural equilibrium of the body to achieve healthy body, mind and spirit
- No side-effects • Highly effective in chronic diseases
- Increase longevity
